Curious and driven student seeking development opportunities to gain valuable knowledge and experience in software engineering using web and mobile app development skills.

Experience

Code Coach, The Coder School, September 2019 - present
- Guide children through projects in small group setting to teach them programming concepts ranging from basic coding concepts to web, mobile application, or game development.

Independent Developer, eXo, August 2019 - present
- Currently developing a website for tech consulting startup eXo, featuring Django REST API, React frontend, PostgreSQL database, and Stripe eCommerce. Website allows users to start new consulting projects & track the progress of existing ones. Additionally plan to develop companion iOS and Android apps for eXo platform once website is completed.

Projects

Trivia Trek, Github repository
- Created Trivia Trek, an iOS app, with a 3-person team for the FBLA Mobile App Development competition. App features SpriteKit digital trivia board game, question randomization, and game history tracking. Individually, I managed Firebase database and authentication integration and contributed significantly to frontend and game mechanics.

Awards and Honors

- 2nd Place, Mobile App Development, California FBLA State Conference (April 2019)
- Top 15 Finalist, Mobile App Development, FBLA National Conference (June 2019)

Skills

Advanced	Intermediate	Proficient
• Python	• HTML/CSS	• Sass
• Django	• JavaScript	• Stripe
• Swift	• React	• Redux
• Java	• PostgreSQL	• Node.js

Education

University of California, Irvine
- B.S. in Computer Science (expected graduation 2022)
